## Why Bitchin' Spirits & Prohibition?

During the national lockdown of 2020, liquor stores in South Africa started gathering dust for the first time; no feet through the aisles, no bottles being picked up to take home... nothing. If you concentrated hard enough it wasn't impossible to imagine a tumbleweed blowing in the wind in front of all the closed liquor store doors.

In the wake of the alcohol ban devastation, the Prohibition and Bitchin' Spirits range was born. What started as an idea, just a spark - small batch liquor production for friends and family - is now a thriving business and we're proud to present Glitter & Moonshine tastings.
